

key concepts, 25–27
 knowledge vs. information vs. data, 10–13
 legacy data issues, 33
 legal issues, 31, 187
 life cycle, 84, 87–109
 limitations, 28–34
 list of leadership roles, 43–44
 list of potential benefits, 155
 Medical Multimedia example, 20–24
 need for training, 25–26, 31–32, 50
 overhead issues, 32
 packaging issues, 14–15
 and politics, 184–186
 predictors of success, 188–189
 as process, 26–27
 vs. process reengineering, 47–51
 risks, 183–188
 ROI limitations, 163–164
 role of change, 26
 role of leadership, 25
 role of technology, 26, 41–42, 92–93, 111–133, 187–188
 steps in enabling programs, 138–151
 storage issues, 14
 types and sources of information, 9–10
 as upsetting to corporate equilibrium, 54–56
 Knowledge managers, 43
 Knowledge mapping, 49
 Knowledge stewards, 44
 Knowledge workers:
 assessing loyalty, 66–68
 communities of practice, 76–78
 defined, 58
 educating, 70–73, 167–169
 as front-line workers, 3

hierarchy, 3
 list of issues, 62
 as managers and professionals, 3
 managing, 63–66
 Medical Multimedia example, 60–62, 84–87
 overhead costs, 73–75
 recognizing contributions, 73
 return on investment, 70–72
 role in information life cycle, 93–94
 shaping their behavior, 80–81
 as stakeholders, 159, 160–161
 as value multipliers, 70
